

ELAC

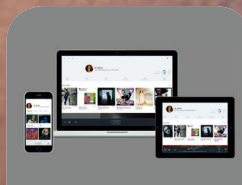

The life of sound.

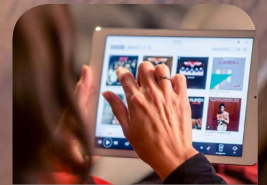

Experience music as never before.
Discovery Music Server DS-S101-G

Control up to eight zones in your own ELAC network or wireless via AirPlay. Your music, as you like it. It's so simple.

The Discovery Music Server is easy to use by the Room Essentials App on your tablet, smartphone or PC/MAC.

Between users and across devices, you can select from downloads, ripped CDs and streaming services. Your collection is supported by a rich library of images and information.

The Discovery Music Server is designed to be the heart of a serious music system, offering playback of local and streaming music, rich multi-dimensional metadata and multi-room audio, all with an interface that anyone can master in a few minutes.

One component, infinite sound. Discovery Music Server DS-S101-G - Multiroom with passion.
